

Trial Corporate membership offer: €65 / £50 for two months

We exist for the benefit of our Members, and to explore new training opportunities we are currently offering a short term, pre-membership programme of detailed technical advice to any bona-fide user of brazing technology in those areas where we have the expertise to enable us to be of assistance. After two calendar months each project will have been concluded. However if you then wish to continue as a normal member you will be asked to pay the pro-rata balance of €260 / £220 + Tax. This will secure your Corporate Membership for the remainder of the current subscription year and enable you to enjoy the full benefits of membership including both further technical assistance and also administrative participation such as voting rights and eligibility to serve on the management committee.*

Only **four general conditions** will normally apply to Trial Corporate Membership (referred to below as Trial Membership):

1. A project must be suitable for completion within two months, the first actions being to agree project title and scope.
2. It must be in an area where EABS already has sufficient expertise.
3. Limited access will be granted to the EABS Members Library.
4. English will be the language used in all communications.

Any information passed to us in the course of the project will be held in confidence between the Trial Member and the EABS consultant involved until it passes into the public domain by an independent route.

N.B. It is the Trial Member's responsibility to test the outcome of the project to ensure it properly meets the needs of its proposed use.

In view of the strictly nominal cost of the Trial Membership programme the Trial Member will reimburse EABS with any pre-agreed additional costs incurred by EABS, for such matters as formal report writing, travel, or laboratory tests carried out in connection with the project.

*Normal subscription is €325 / £270 per annum + Tax for each registered site. The subscription year runs from March to April. The *Pro-rata* rate is calculated at 9% of the Annual fee for each of the months remaining in the calendar year concerned.

If you wish to pursue this opportunity further please tell us what your precise interest is by contacting The EABS Secretariat by e-mail at:
